EDUCATION

American University, School of International Service

Washington, DC

Master of Arts in International Affairs, Policy, and Analysis

Expected May 2026

- Focus on Indo-Pacific National Security, with research on the growing strategic importance of Okinawa and China in 21st century geopolitics. Masters' thesis on China's use of technological espionage to compete against US economic interests.
- Compiled data across various sources in RStudio to create detailed maps, charts, and graphs to explain geopolitical trends and information with ggplot2. This data often requires translation and tidying before conducting statistical analysis.

Centre College

Danville, KY

Bachelor of Arts in International Studies and History

2024

- Performed critical research, writing, and speaking skills from courses.
- Two thesis papers on US history in Okinawa and the Japanese economy, presented at professional research symposium.

Yamaguchi Prefectural University

Yamaguchi, Japan

Exchange Program

2022-2023

- Completed classes on Japanese culture and history. Proficient in basic Japanese, conducted research using Japanese sources.
- Taught English and developed lessons for Japanese students at a college level.

EXPERIENCE

Pension Benefit Guaranty Corporation

Washington, DC

Pathways Intern, Data Analyst

2025

- Compiled database of remote workers and distances from the office to assess feasibility of a six month Return to Office plan.
- Assessed and reported financial cost of supporting critical medium-distance commuters with travel and child-care subsidies.
- Assembled and analyzed metrics on PowerBI and ServiceNow to create our office's 2024 Year-in-Review report for the GSA.

American University, Center for Diversity and Inclusion

Washington, DC

Graduate Coordinator for Operations and Reporting

2024

- Reviewed, interviewed, and trained candidates to assist with event planning and setup. Utilized Asana to manage tasks.
- Created an event spreadsheet for all events for the year, including automated graphs tracking turnout, interest and event costs.
- Wrote and revised the student staff manual for the office, including necessary rules and policies for employees.

Centre College, Office of Community and Civic Engagement

Danville, KY

Communications Intern and OCCE Campus Liaison

2023-2024

- Planned a year's worth of events intended to engage students on campus in the democratic process.
- Organized speaker events for local activists, arranging deliberative dialogues on important issues between students and faculty, and voter registration events.
- Wrote successful grant proposals for the Ask Every Student implementation grant to fund \$3,500 of Civic Engagement voter registration and other activities for the 2024-25 school year.

Centre College, Career and Professional Development Center

Danville, KY

Marketing and Social Media Intern

2023-2024

- Created flyers and social media posts to encourage students to attend Career Center events and campus career fairs.
- Advertised different employers and graduate schools seeking to recruit students from Centre College.
- Created a website for a local business to advertise and build a relationship with Centre College.

Boyle-Danville County Chamber of Commerce

Danville, KY

Farmers' Market Assistant Manager

2020-2024

- Organized a financial database of the Market's weekly transactions and profits, and built Excel spreadsheets to automate the process to accurately report financial numbers to the State of Kentucky for additional grant funding.
- Planned weekly live music events and coordinated with other non-profits to increase customers and visibility of the market.
- Handled an increase from 29 vendors to 65 in two years and doubled average weekly revenue from \$5,000 to \$11,000.
- Interviewed farmers and community leaders for weekly newsletter, and created social media posts for advertising the market.

SKILLS

RStudio

- Cleaned and compiled large datasets using Tidyverse. Analyzed various statistical projects, including an analysis of birth defect rates in Texas by air pollution. Created easily comprehensible visualizations of graphs, maps, and tables using ggplot2.
- Experienced in using R to analyze Microsoft Excel databases, compiling data and creating relevant visuals of the information provided in the databases.
- Created engaging presentations explaining my research, performed orally to a class of 20 students.

PowerBI

- Experienced in managing connections between active dashboards in PowerBI, able to create live dashboards with actively changing information. Managed dashboards keeping track of office supply orders and inventory space.

Japanese

- Able to conduct research in Japanese. Experienced in finding relevant data sources, translating, and using them as databases in the R coding language.
